

the olympic flame is coming

Join us and celebrate

Times shown are when the Flame is due to arrive.

A convoy with music, dancing and entertainment will be passing through approximately 20 minutes before these times.

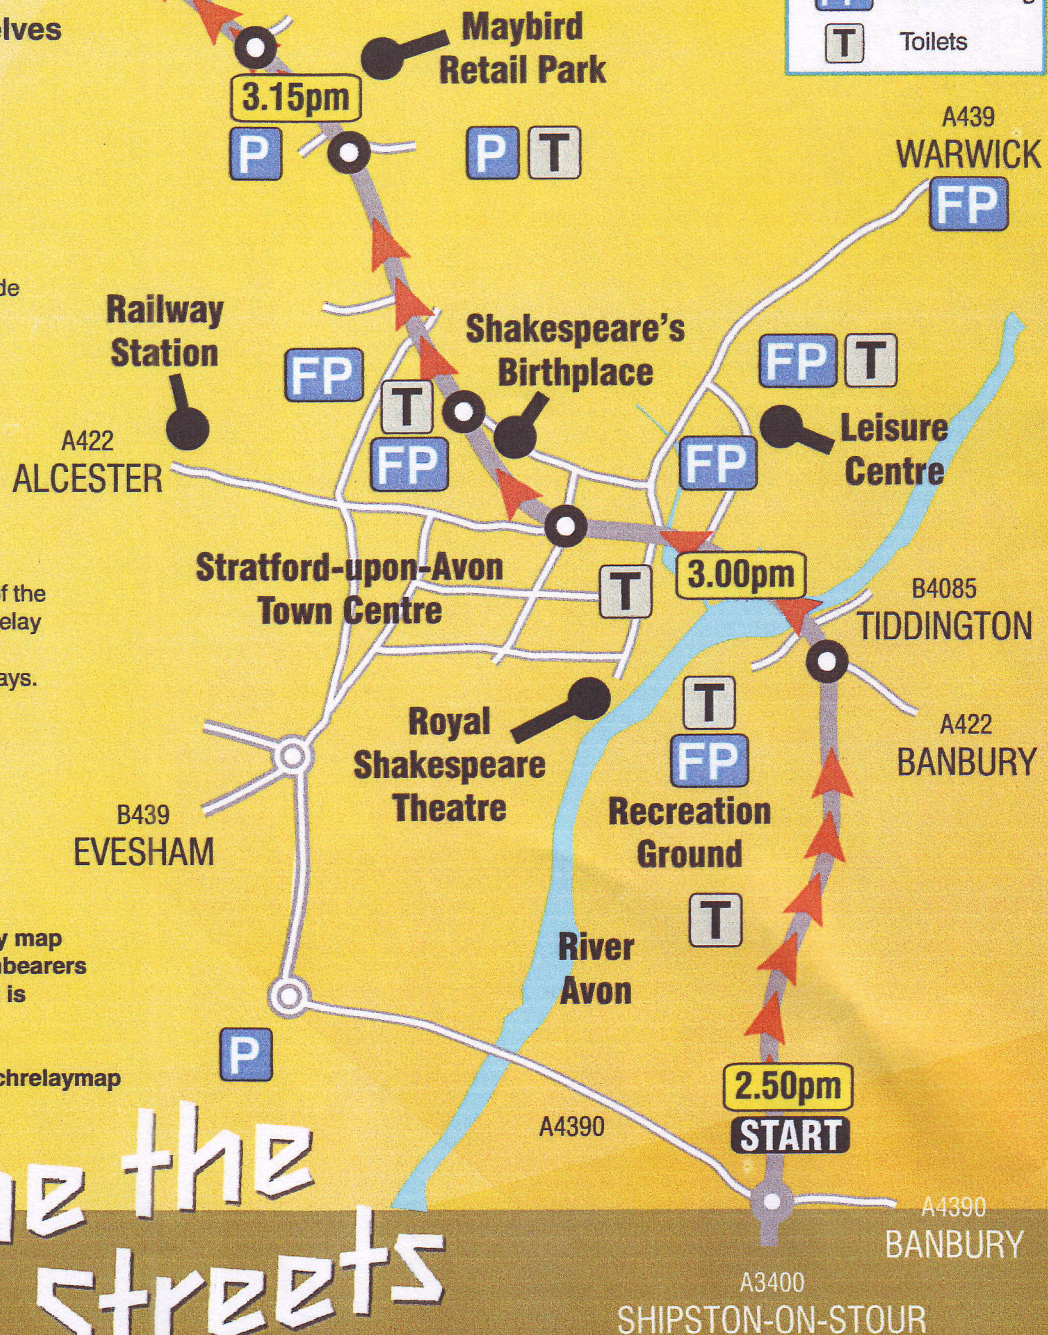

Everyone is encouraged to line the streets for this wonderful historic event. Below is a list of safety guidelines to keep yourselves and your families safe:

- There will be no parking on the torch relay route, so if you decide to drive to watch it please ensure you park in a place that won't get in the way of the relay.
- Don't run out in front of or alongside the torch as there will be moving vehicles. Stand some where safe along the route to watch it.
- View from the pavement of the passenger side door of the convoy for the best view and to have a better chance of getting freebies being given out from sponsor vehicles.
- If you're not planning to visit any of the communities on route, watch the relay from as close to work or home as possible as there will be traffic delays.
- Local radio will be broadcasting information or follow the progress on twitter @StratfordDC
- Safety for you and your family remains your responsibility. So make sure someone is watching children at all times.

For full details and the Torch Relay map to show every street that the torchbearers will travel along, including when it is in torchbearer or convoy mode please visit:
